## PURIM IS COMING!!!

**BOLO** (be on the lookout)! Order forms will be going out soon for Mishloach Manos.

The people of Israel are called upon to contribute thirteen materials—gold, silver and copper; blue, purple and red-dyed wool; flax, goat hair, animal skins, wood, olive oil, spices and gems—out of which, G-d says to Moses, “They shall make for Me a Sanctuary, and I shall dwell amidst them.”

On the summit of Mount Sinai, Moses is given detailed instructions on how to construct this dwelling for G-d so that it could be readily dismantled, transported and reassembled as the people journeyed in the desert.

In the Sanctuary’s inner chamber, behind an artistically woven curtain, was the ark containing the tablets of testimony engraved with the Ten Commandments; on the ark’s cover stood two winged cherubim hammered out of pure gold. In the outer chamber stood the seven-branched menorah, and the table upon which the “showbread” was arranged.

The Sanctuary’s three walls were fitted together from 48 upright wooden boards, each of which was overlaid with gold and held up by a pair of silver foundation sockets. The roof was formed of three layers of coverings: (a) tapestries of multicolored wool and linen; (b) a covering made of goat hair; (c) a covering of ram and tachash skins. Across the front of the Sanctuary was an embroidered screen held up by five posts.

Surrounding the Sanctuary and the copper-plated altar which fronted it was an enclosure of linen hangings, supported by 60 wooden posts with silver hooks and trimmings, and reinforced by copper stakes.

This week's Haftorah describes the construction of the Holy Temple under the direction of King Solomon, echoing this week's Torah portion which discusses the construction of the Desert Tabernacle.

The Haftorah discusses the manpower — both Jewish and non-Jewish — that Solomon recruited for the building of the Holy Temple. Also discussed are the hewing and transportation of the stone, the laying of the foundation, as well as the dimensions of the Holy Temple, its components and materials.

The Haftorah ends with G-d's word to King Solomon: "This house which you are building, if you walk in My statutes, and execute My ordinances, and keep all My commandments to walk in them; then will I establish My word with you, which I spoke to David your father. And I will dwell among the children of Israel, and will not

We are looking to start a youth committee. Please call me if you're interested in this!

- Thursday March 7 Charlie Brown show only a few seats left! Sunday sold out.

Parsha Questions:

1. What were the Bnei Yisrael commanded to build in the Midbar?
2. Who was in charge of building the Mishkan?
3. What was the holiest room of the Mishkan called?
4. What was in the Kodesh Hakodashim?
5. What was on the cover of the Aron?
6. Describe how they looked.
7. What did they keep inside the Aron?
8. What did they put on the Shulchan?
9. What was the miracle that occurred with the bread on the Shulchan?
10. How many branches did the Menorah have?

Parsha thought to ponder :

In this parsha we learn about different kinds of parts of the Mishkan, the home of Hashem. One of the items that was constructed to be used in the Mishkan was the Menorah. The Menorah had six branches and a stem. The unique feature of the Menorah was that it had to be constructed MIKSHA, "hammered out". Rashi explains that this means its parts were not to be created separately and then attached the way many of the other utensils were created. The Menorah needed to be formed out of one piece of gold. The different branches of the Menorah symbolized the various types of Jews. Maybe this was to emphasize the strong belief that ALL Jews, no matter what they look like or their level of observance, comprise the Jewish people. We are ONE people.
